ASGCT has implemented a process where everyone who is in position to control the content of an educational activity has disclosed all relevant financial relationships with any commercial interest, and has personally attested that these relationships will not inappropriately affect their role in the activity. Refusal to disclose relevant financial relationships or agree to the expectations below may disqualify you from being a part of the planning and implementation of the activity. Disclosures will be made available to attendees in the on site meeting materials.

1. List the names of proprietary entities producing health care goods and services, with the exemption of non-profit or government organizations and non-health care related companies with which you or your spouse/partner have, or have had, a financial relationship within the past 12 months. For this purpose, all financial relationships of your spouse/partner of which you are aware are considered yours.
2. Describe what you or your spouse/partner received (i.e. salary, honorarium, etc). ASGCT does NOT want to know how much you received.
3. Describe your role in the financial relationship.

- If I have been trained or utilized by a commercial entity or its agent as a speaker (e.g., speaker's bureau) for any commercial interest, the promotional aspects of that presentation will not be included in any way with this activity.
- If I am presenting research funded by a commercial company, the information presented will be based on generally accepted scientific principles and methods, and will not promote the commercial interest of the funding company.
